

GOT IN DATAGESTION?

We've got you covered. **Unify** and **harmonize** your data under one roof.

The Challenge:

In today's complex business environment, managing data involves dealing with numerous disparate data sources, disconnected business processes, and a multitude of devices. These challenges can lead to:

Data Fragmentation:

Multiple data streams from various sources create inefficiencies and increase costs.

Disconnected Operations:

Lack of unified data leads to disjointed business processes and decision-making.

Device Overload:

Managing and integrating data from numerous devices and OEMs can be overwhelming.

Unreliable Data:

Inconsistent and fragmented data sources can result in unreliable insights and operational inefficiencies.

The Solution:

Powerfleet Unity offers a seamless, secure solution for unifying your data experience. Our platform addresses these challenges by:

One-Stop-Shop: Centralizing all your data from various physical mobile assets into one unified platform.

Seamless Integration: Effortlessly integrate data from existing hardware without replacing it.

Real-Time Insights: Gain real-time actionable insights to enhance decision-making and operational efficiency.

Unifying Business Processes: Unity connects and harmonizes all disparate data from various third-party sources, despite the device, to enhance overall business efficiency in complex operational environments.

Enhanced Efficiency: Improve your business processes with streamlined data harmonization and transformation.

What do you get?

Unified Operations:

Centralize all your data on one platform.

Long-term Security:

Depend on a stable and secure service.

Enhanced Efficiency:

Improve your data management with real-time insights and harmonized data.

About Powerfleet:

Powerfleet is a global leader in the artificial intelligence of things (AIoT) software-as-a-service (SaaS) mobile asset industry.

With **over 30 years of experience**, Powerfleet unifies business operations by ingesting, harmonizing, and integrating data from diverse sources to deliver actionable insights that help companies save lives, time, and money.

Our commitment to innovation and a people-centric approach empowers customers to achieve impactful and sustained business improvements.

Powerfleet by the Numbers:

7500

enterprise customers worldwide

\$285 million

total revenue

1800

tenured and talented team members

40

patents

\$43 million

EBITDA

1.9 million

total subscribers worldwide

6 continents

with physical geographic presence across 120 countries

Current Integration Capabilities:

Powerfleet Unity supports a wide range of devices, ensuring seamless integration and unified data management.

Frequently Asked Questions:

How long will it take to integrate my existing data?

Our team ensures a swift and smooth integration process, minimizing downtime.

Will my existing data be secure?

Yes, Powerfleet Unity prioritizes data security and compliance.

What if I face challenges during the integration?

Our experienced support team is here to assist you every step of the way.
